

GENDER PAY GAP REPORT 2024

LW THEATRES GROUP LTD. GENDER PAY GAP REPORT 2024

Under legislation that came into force in 2017, all UK companies who employ more than 250 people are required to publish figures relating to their gender pay gap.

The gender pay gap is the difference between the gross hourly earnings for all men and all women in the organisation. The gender pay gap takes account of average hourly earnings across all jobs, at all levels and all salaries, within the organisation. At LW Theatres, we take steps to ensure men and women are paid equally for the same job and jobs of equal value.

We strive to attract a diverse and talented workforce and provide an inclusive environment, where everybody can thrive. Today, we are proud that 50% of our Executive and Senior Leadership Teams are women.

WHAT WE CONTINUE TO DO TO IMPROVE OUR DIVERSITY

We are always striving to diversify our workforce and provide an inclusive culture where everyone can thrive. We compensate and promote people based only on their roles, experience and performance and are proud to have an excellent track record in employing based on the skill and value that individuals bring to our business.

We have policies, systems and training in place to ensure this happens consistently. Some of the things we're doing to reduce our gender pay gap are:

- Highlight on all job adverts that we are open to considering flexible working options and ensuring we think creatively and openly about all flexible working requests.
- Continue to actively support women into career paths across our operations which have traditionally been male dominated - in particular, backstage technical roles. This includes a programme of outreach and early careers opportunities, including: the introduction of a structured work experience programme, which we particularly promote to female students. In addition, we introduced both a technical apprenticeship programme and funded scholarship in 2024.
- Continue to use and develop our recruitment platform, which enables anonymous shortlisting for recruitment campaigns and captures equal opportunities data, providing a benchmark against which future measures of diversity, equality and inclusion can be compared.

WHAT WE CONTINUE TO DO TO IMPROVE OUR DIVERSITY (Continued)

- Delivering dignity and inclusion at work training to everyone in our business. We have an ongoing commitment to this training and continue to refresh knowledge and skills in these areas across our teams and mitigate the impact of unconscious bias.
- Delivering inclusive leadership training to our leadership population to ensure they continue to champion a culture of respect and inclusivity in their teams.
- Working collaboratively with colleagues so that recruitment, training, promotion and compensation decisions are as diverse and inclusive as possible.
- Working with external organisations and referral partners to reach more candidates from under-represented groups and support the work of partners who aim to improve access and equality in the workplace.
- We aim to support women throughout their careers and have introduced specific policies which promote inclusivity, such as pregnancy loss, fertility treatment and menopause support.

I confirm on behalf of LW Theatres Group Ltd that the information provided is accurate.
